Dog dumped on the Moors!

Where do we start with Sid!

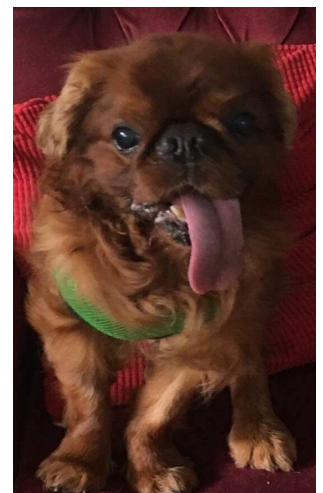

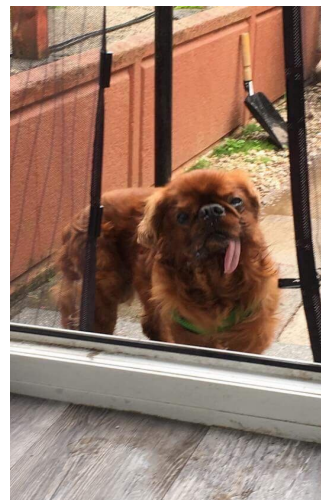

This poor guy was found wandering on his own up on the moors. Thankfully, after nearly being hit by a car he was picked up and brought to us.

Sidney was covered in matts and his nails were so overgrown they had curled into his feet making it impossible for him to walk without being in pain.

After the RSPCA arrived he was taken straight to the vets where it was also discovered his teeth were so infected it had caused his jaw to crack.

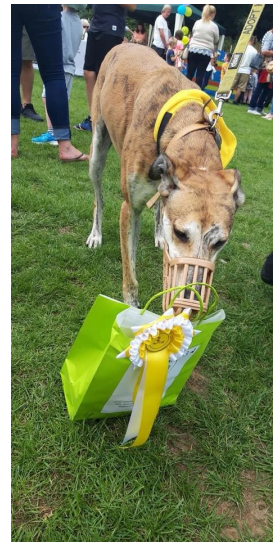

He also has an old injury to his knee which causes him to walk with a bit of a wobble and if that wasn't enough he has an ulcer in his eye causing pain and discomfort.

After 2 weeks at home with staff member Toni he started to feel much better and slowly recovering from all his issues, Sid is still on a lot of medication and has had a lot of his teeth removed but is still a very sweet boy who loves attention. He was with staff member Toni for just over a month but is now in a fantastic new home and being spoilt rotten.

Halton Dog Show

Well done to Rocket who won best in show today at the Halton dog show. Many thanks to Eleanor from Lune Dog Grooming for being our judge. Thank you to all who organised the event and invited us and to our wonderful volunteers who help us. Trevor had a Lovely day and won most unusual pair with his lady friend Sammy .

Baxter's Art

'As you all know I've got a new fancy kennel and outdoor area that I now stay in. I love it and I feel very lucky the staff picked me to enjoy it.

In my sleeping area I have my beds, toys, treats and even my own radio but the walls are a bit plain and boring. Id really love it if my friends would send me some art work to put up in my room to make it a bit of a happier place. It doesn't matter if your 4 or 44 years old draw me a picture of what ever makes you happy.

Thank you I can't wait to see what I get'

All pictures can be sent to:

Mr Baxter

Animal Care

Blea Tarn Road

Scotforth

Lancaster

Or drop them in to the centre.

Thank you

Last week we had the pleasure of welcoming Laura, Emily, Jane and Evie from Fresh Perspective Resourcing Ltd with the view of being their 'Charity of the Year!'

FP Resourcing are a recruitment business with a twist, focused on helping businesses and people. They are all animal lovers and have 4 of their very own office dogs Louie, Jenny, Alfie and Lenny - 2 of which are rescue dogs.

We will find out soon whether we will have the privilege of working with Fresh Perspective over this next year. By working with them we will benefit in many ways from the fundraising, volunteering and raising the charity's profile further through press releases to local papers and radio interviews.

Animal Care have recently assisted the RSPCA in the rescue of 152 guinea pigs.

The poor things were in very cramped, dirty and unsuitable housing. Unfortunately another case of animals suffering due to unnecessary breeding until things get totally out of control.

Guinea Pigs are wonderful pets and like every animal need space, love and care. These guys were being kept in groups of 10 in 4 foot cages with little space to do anything. Thankfully the RSPCA have acted and all will now be safe.

Animal Care have taken 35 today. 23 Females and 12 males.

Fun Day out for Roxy

Roxy the patterdale had a wonderful day out with one of our volunteers. Even after walking for over 8 miles she could have easily gone further Roxy needs a VERY active home with new owners who won't leave her on her own too much. She could potentially live with another dog as long as they share her energy levels - she never wants to stop playing and is not great at reading other dogs when they're trying to tell her off .

What is the Patterdale terrier temperament?

The Patterdale terrier is a bold, plucky little dog that is confident and outgoing from a young age, which can on occasion mean that they are apt to getting themselves into hot water! They are lively, active dogs that like to have something to do, and that need plenty of toys, time spent playing, and interaction with people to keep them happy.

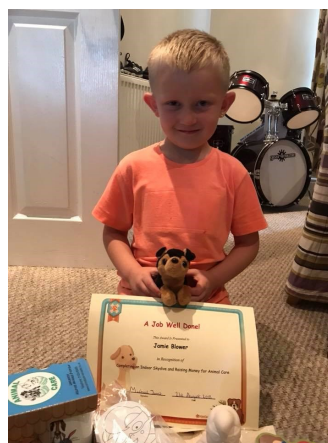

Due to their history as a working breed, they will soon become bored if they are left alone for long periods of time within the home, and can be prone to being destructive, digging holes and tearing at the furniture. They are fun loving, entertaining and personable, and love having a person to play with and run around with. They can also be independent and prone to stubbornness and dominance, meaning that they require a confident, experienced handler to keep their energies directed through the proper channels.

How much exercise do they need?

The Patterdale terrier is not a good match for people who are not particularly active, and the dog will not thrive with just a couple of short walks per day. They need plenty of walks both on the lead and off the lead, as well as interactive play and being able to stretch their legs and run around.

They are happiest when outside and having something to do, so for dogs that are not used within working roles, plenty of stimulation and possibly, participation in a canine sport such as obedience, agility or flyball can help to keep the dog occupied.

Superstar Jamie came to visit this afternoon following the skydive he did last month for his 6th birthday, in aid of Animal Care. So far he has raised an incredible £440! We were very proud to present Jamie with his own goodie bag and certificate for his very brave and wonderful efforts.

New Menu at our Tearooms
